

Sisters-Camp Sherman Rural Fire Protection District
“Protecting Life and Property through Quality Service”

September 7, 2020

To: Interested Bidders for Snow Removal Contract
From: Roger Johnson, Fire Chief
Subject: INVITATION TO BID

Dear Interested Bidders:

First of all, thank you for considering submission of a bid for the Snow Removal Contract at Sisters-Camp Sherman RFPD properties. In the interest of ensuring an equitable and appropriate bidding environment, this cover letter is to advise you that the District will seriously consider all reasonable bids which meet or exceed the specifications. We will also seriously consider bids which take exceptions but provide for equal or better methods, materials or products. It is the intent of the District to invite bids for these services every three years.

Due to previous ice dam issues, we would like to have an optional hourly rate for snow removal from our roofs upon request if your business performs this service.

We appreciate the amount of time it takes to put together a comprehensive bid package, and in return we promise to carefully and fairly review all submissions. If you have specific questions regarding the requirements, please contact Shift Commander Thornton Brown at 541-549-0771. Should you have questions regarding the overall bid specifications or requirements, please contact me at the same number.

Sincerely,

Roger Johnson
Fire Chief
